

# SITUATION REPORT

## Village Glen Apartments Render Safe Operation – Beaver Dam, WI

**Current Situation – March 13, 2018 at 10:30 am**

**For more information contact IMT lead – Chris Hohol at 920-427-6920**

### **CURRENT SITUATION – NOTE: CHANGE IN DATE OF BURN (See Below)**

Planning has continued over the last several days for the thermal destruction of the apartment building at 109 Knaup Drive in Beaver Dam, WI. The original planned date of Wednesday March 14<sup>th</sup>, has been moved to Thursday March 15<sup>th</sup> due to weather forecasts of strong winds for Wednesday. All plans and technical approaches remain the same for Thursday.

Current operations for Tuesday March 13<sup>th</sup> (today) will continue, and include general site preparation and readiness for the day of the burn. New operations today will now include verification of all resources and verification of schedules. The City EOC will remain open and we will add an additional day of the burn. Current planned press conferences will continue as scheduled.

## VILLAGE GLEN APARTMENT RENDER SAFE OPERATION

### FOR IMMEDIATE RELEASE

**Date: Tuesday, March 13, 2018**

**Contact: Public Information: 920-319-4410**

**Subject: Village Glen Apartments Render Safe Operation**

**The burn scheduled for Wednesday has been postponed to Thursday, March 15 due to high winds**

**Beaver Dam** – At a planning meeting this morning an update was provided by the National Weather Service indicating that wind speeds for Wednesday were not expected to be favorable for a safe operation. Weather conditions are expected to improve for Thursday. Therefore, the planned burn has been postponed until Thursday, March 15, 2018. All of the times remain the same. Roads will be closed starting at 9:00 a.m. Thursday.

The media are invited to attend a briefing about the Village Glen Apartments Render Safe Operation in the Beaver Dam City Council Chambers (205 S Lincoln Ave, Beaver Dam, WI 53916) at **4 pm on today**.

No new information is anticipated to be shared beyond what is being shared here regarding postponing the burn due to weather. Mainly this is an opportunity for the media to ask questions and conduct individual interviews with officials. Unfortunately, we are not able to accommodate individual requests for interviews throughout the day today. If you have needs, please attend the media briefing at 4 pm today.

This is the message posted on the Beaver Dam Police Department Facebook page. Please help us get the word out.

*The controlled burn of Village Glen Apartments Building 109 has been postponed until Thursday, March 15<sup>th</sup> due to a change in the forecast weather conditions. The times will remain the same.*

## VILLAGE GLEN APARTMENT RENDER SAFE OPERATION

### INCIDENT INFORMATION

March 13, 2018

#### New Information:

- **Date of burn changed to Thursday, March 15, 2018**
- **Transportation to St. Katherine's is available for those who are in the mandatory evacuation notice who have no other means of travel. If you want transportation, call the EOC at 920-887-4600 ext 250 or 241 by Wednesday at noon.**
- **Part of Building 123 also falls within the mandatory evacuation zone.**

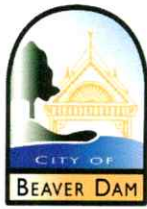

#### BACKGROUND

- On March 5<sup>th</sup>, the Beaver Dam Police and Fire Departments responded to an explosion at the Village Glen Apartments, Building 109. A small fire was extinguished and a deceased male was discovered in one of the apartments.
- Responding agencies discovered a number of hazardous chemicals in the apartment where the explosion occurred. Numerous state and federal agencies were called in to investigate.
- Due to the volatile nature of the chemicals that were found in Building 109, it has been permanently evacuated. No one is allowed to enter this building, including all agency personnel.
- It was determined that the safest way to mitigate the risk from the chemicals in the apartment is through "thermal destruction" which means we plan to intentionally burn building 109. It is the heat that will be generated by this fire which will render the situation safe.

#### PLANNED OPERATIONS

- We are planning the intentional structure burn of Building 109 for Thursday, March 15, 2018.
- At 9:00 a.m. on Thursday morning, the outer perimeter will be closed to traffic (see map on last page). No civilian traffic will be allowed to enter after this time.
- We are doing a mandatory evacuation for those nearest Building 109 as per the recommendation of the FBI. This will affect residents living in Buildings 103, 105, 107, 111 and 113. It also affects part of Prairie Ridge, Keystone Manor and Village Glen Apartment 123. It is acceptable for people to shift internally within their building to get them out of the inner zone of concern.

## **GE GLEN APARTMENT RENDER SAFE OPERATION**

- All other residents and businesses in the area of the Village Glen Apartments (within the area of Knaup Dr., N. Spring St. from Woodland Dr. to Industrial Dr. E., and Industrial Dr. E. to but not including HWY 151) are recommended to evacuate or shelter in place. Shelter in place means to seek safety within the building one already occupies. All windows and doors should be closed and all people and pets should stay inside.
- Around 10:00 am, Building 109 will be intentionally ignited.
- The goal is to complete the burn and allow activity to resume in the area by evening.
- When the closure is lifted, it will be posted on the Beaver Dam Police Department Facebook page.

### **FOR RESIDENTS UNDER MANDATORY EVACUATION**

- Please leave the closure area by 9:00 a.m.
- Law enforcement will do building checks at 9:30 a.m. to make sure that all residents have evacuated.
- During the time you are evacuated, you are welcome to stay at the St. Katherine Drexel Parish Center, which is our Family Assistance Center. St. Katherine's will be open starting at 8:00 a.m. You can come and bring your pets and spend the day there. Food and water will be provided. Counselors will be on hand.
- Everyone who is evacuating the area needs to take purse, pills, pets, pet food, pet carriers, phones, and valuables with them when they leave. Once you leave the area, you will not be allowed to reenter even if you forgot something and emergency workers will also not go in after something you left behind. Please plan accordingly.
- Please note that you are responsible for your pets at St. Katherine's. Only domestic pets will be allowed.
- We do not anticipate this going overnight, but if it does St. Katherine's will also serve as an overnight shelter.
- Residents in the evacuated area will need to have a plan in place for the end of their day. You will not be able to return to your property until the closure is lifted (anticipated for evening). St. Katherine's will be available to you.
- For those in the evacuation area, school buses will drop off your kids in the afternoon at St. Katherine's.
- If you live in Building 113, we ask that you remove firearms and ammunition before Thursday. If you have any questions about your specific situation, please contact the Emergency Operations Center phone line listed later in this document.

## GE GLEN APARTMENT RENDER SAFE OPERATION

### FOR RESIDENTS OF BUILDINGS 109 & 113 ONLY

- There will be a heated tent in place in the old Applebees/Freber's Jewelry parking lot at 1740 North Spring so that you can view the operation. Counselors will be available on site. Plan to arrive by 9:00 a.m. You can leave at whatever time you like but once you leave, you will not be allowed to reenter.

### FOR THE MEDIA

- Media is welcome to set up in the parking lot of the Farm Fleet gas station as many have been doing all week. You will be just outside the outer perimeter here for safe viewing.
- Media briefings are scheduled for Tuesday at 4 pm at the City Council Chamber and tentatively for Wednesday at 4:00 p.m. at City Council Chambers and tentatively for 4pm at the Farm Fleet media staging area.
- Critical information updates will be posted to the Beaver Dam Police Department Facebook page.

### FOR THE GENERAL PUBLIC

- We ask everyone to avoid the noted area on Thursday for safety of the public and agencies on scene

### DONATIONS

- An account for monetary donations has been opened to assist the residents of building 109. Donations can be made at any Dodge County Horicon Bank location. The name of the account is *Dodge County COAD / Beaver Dam Apartments*.
- Any non-monetary donations should go to St. Vincent DePaul or American National Bank. Please do not drop off any items at the Village Glen Apartments.
- The Beaver Dam Professional Firefighters Charities is hosting a fundraiser for the residents of Building 109 this coming Saturday, March 17<sup>th</sup> from 1-4 pm at the Tower Lanes Bowling alley in Beaver Dam. It costs

### SUPPORTING ORGANIZATIONS

- We would like to thank the numerous organizations are working on this incident including:
  - numerous Beaver Dam City Departments
  - Dodge County Emergency Management
  - Dodge County Sherriff's office
  - Dodge County Human Services and Public Health
  - Watertown Department of Public Health
  - American Red Cross
  - Salvation Army
  - East central area and local incident management teams
  - Numerous other state and federal partners

All:

Updated information for anyone involved with this incident. Updated since yesterday with the following:

### **New Information:**

- **Date of burn changed to Thursday, March 15, 2018**
- **Transportation to St. Katherine's is available for those who are in the mandatory evacuation notice who have no other means of travel. If you want transportation, call the EOC at 920-887-4600 ext 250 or 241 by Wednesday at noon.**
- **Part of Building 123 also falls within the mandatory evacuation zone.**

**Also, we play to re-flyer all of the apartments again today.**

## VILLAGE GLEN APARTMENT RENDRER SAFE OPERATION

# Mandatory Evacuation Notice

**Updated 3/13/18 to include the west half of Building 123 (the half that is facing Building 109)**

A mandatory evacuation is required for all residents of Village Glen Apartments (including buildings 103, 105, 107, 111, 113 and 123) during the planned burn of Building 109 on **Thursday March 15, 2018**. Please leave the closure area by 9:00 am. When you leave your apartment in the morning, take your purse, pills, pets, phones and valuables with you. If you forget something, you will not be allowed to return. Safety officers and police will be going door to door at 9:30 am to confirm residents have left. The burn is scheduled to start at 10:00 am. Note that once you leave the area you will not be allowed to return until the area is deemed safe. School buses will drop off students in the afternoon at St. Katherine's. The goal is to complete the burn and allow residents to return home by evening. During the time you are evacuated, you are welcome to stay at the St Katherine Drexel Parish Center at 408 South Spring, which is our Family Assistance Center. You can come and bring your pets and spend the day there. Please note that you will be responsible to control your pets at St, Katherine's. Only domestic pets will be allowed. Food and water will be provided. We do not anticipate this going overnight, but if it does St Katherine's will also serve as an overnight shelter. When roads are reopened, it will be indicated on the Beaver Dam Police Department Facebook page and announced at the St. Katherine Drexel Parish Center.

## Flyer for Residents of Building 123 - PLEASE POST TODAY

1 attachments (4 MB)

Flyer031318.docx;

All:

We just realized that half of building 123 is in the mandatory evacuation zone and we have not included them in the list of buildings that had to evacuate. It was on the map but not in our messaging. I'm attaching an updated flyer – the one we used for all of the other buildings with the addition of the map on there. Chief K is out checking the layout of Building 123 right now to know which apartments are affected. Someone needs to print off these flyers and post them today as soon as possible on the affected apartment doors.

Thanks,

## **GE GLEN APARTMENTS RENDER SAFE OPERATION**

### **MEDIA BRIEFING TALKING POINTS**

**March 13, 2018 at 4:00 p.m. at City Council Chambers  
205 S Lincoln Ave, Beaver Dam**

#### **POLICE CHIEF - JOHN KREUZIGER**

- My name is...My title is...
- I'd like to start by telling you our plan for this media briefing. Each of us will make a brief statement; we will then take questions from the group; we will also stay afterwards and make ourselves available for individual interviews. Our main purpose for today is just to make ourselves available to you.
- Regarding the investigation, we do expect to be able to release the name of the deceased in the next several days. When the name becomes available the Beaver Dam Police Department will immediately do a news release.

#### **FIRE CHIEF - ALAN MANNEL**

- My name is...My title is...
- At a planning meeting this morning an update was provided by the National Weather Service indicating that wind speeds for Wednesday were not expected to be favorable for a safe operation. They were calling for sustained winds of 20mph and gusts of 30...not ideal for our operation. Weather conditions are expected to improve for Thursday.

#### **DIRECTOR OF DODGE COUNTY EMERGENCY MANAGEMENT - AMY NEHLS**

- My name is...My title is...
- Something new The Beaver Dam Professional Firefighters Charities is hosting a fundraiser for the residents of Building 109 this coming Saturday, March 17<sup>th</sup> from 1-4 pm at the Tower Lanes Bowling alley in Beaver Dam. It costs \$20 for 2 games and shoes.
- We want to thank you for your continuing coverage of this event.
- We'll take questions now....
- Don't forget to ask them to sign up for email updates if desired.

Hi Amy,

Thank you for this! It will be very helpful. I will get you the list shortly of the people we know are saying they wont leave. Do you know exactly which units must evacuate? It's hard to tell where the line ends on the map.

Thank you for all your help! You all are doing an excellent job in this unfortunately situation.

Sarah,

In follow up to our conversation earlier...

We are currently working on a form that people will be asked to complete if they refuse to honor the mandatory evacuation. I'll send it to you when it's ready for your information. Officers are still working out the details but maybe your staff would be willing to help us by starting a list of those that have refused to leave. Then officers will address it that day with the form. That would save us some time.

You asked a really good question.... Thanks for reaching out to us. We can stay in touch on this.

Thanks so much,

Amy Luebke

**Subject:** Village Glen - Talking Points for Residents

Hi Sarah,

I've attached the talking points we provided yesterday which includes a map of the mandatory evacuation zone.

Part of Keystone falls into the mandatory evacuation zone. Those people can shift within the building. The rest of the building can shelter in place.

Keystone is still in the closure area. If people choose to drive out of the area, they will not be allowed to drive back in until the closure is lifted. Anticipated for evening.

## ICS 205

### Incident Radio Communications Plan

**Purpose.** The Incident Radio Communications Plan (ICS 205) provides information on all radio frequency or trunked radio system talkgroup assignments for each operational period. The plan is a summary of information obtained about available radio frequencies or talkgroups and the assignments of those resources by the Communications Unit Leader for use by incident responders. Information from the Incident Radio Communications Plan on frequency or talkgroup assignments is normally placed on the Assignment List (ICS 204).

**Preparation.** The ICS 205 is prepared by the Communications Unit Leader and given to the Planning Section Chief for inclusion in the Incident Action Plan.

**Distribution.** The ICS 205 is duplicated and attached to the Incident Objectives (ICS 202) and given to all recipients as part of the Incident Action Plan (IAP). All completed original forms must be given to the Documentation Unit. Information from the ICS 205 is placed on Assignment Lists.

#### Notes:

- The ICS 205 is used to provide, in one location, information on all radio frequency assignments down to the Division/Group level for each operational period.
- The ICS 205 serves as part of the IAP.

Block Number	Block Title	Instructions
1	<b>Incident Name</b>	Enter the name assigned to the incident.
2	<b>Date/Time Prepared</b>	Enter date prepared (month/day/year) and time prepared (using the 24-hour clock).
3	<b>Operational Period</b> <ul style="list-style-type: none"><li>• Date and Time From</li><li>• Date and Time To</li></ul>	Enter the start date (month/day/year) and time (using the 24-hour clock) and end date and time for the operational period to which the form applies.
4	<b>Basic Radio Channel Use</b>	Enter the following information about radio channel use:
	Zone Group	
	Channel Number	Use at the Communications Unit Leader's discretion. Channel Number (Ch #) may equate to the channel number for incident radios that are programmed or cloned for a specific Communications Plan, or it may be used just as a reference line number on the ICS 205 document.
	Function	Enter the Net function each channel or talkgroup will be used for (Command, Tactical, Ground-to-Air, Air-to-Air, Support, Dispatch).
	Channel Name/Trunked Radio System Talkgroup	Enter the nomenclature or commonly used name for the channel or talkgroup such as the National Interoperability Channels which follow DHS frequency Field Operations Guide (FOG).
	Assignment	Enter the name of the ICS Branch/Division/Group/Section to which this channel/talkgroup will be assigned.
	RX (Receive) Frequency (N or W)	Enter the Receive Frequency (RX Freq) as the mobile or portable subscriber would be programmed using xxx.xxxx out to four decimal places, followed by an "N" designating narrowband or a "W" designating wideband emissions.  The name of the specific trunked radio system with which the talkgroup is associated may be entered across all fields on the ICS 205 normally used for conventional channel programming information.
	RX Tone/NAC	Enter the Receive Continuous Tone Coded Squelch System (CTCSS) subaudible tone (RX Tone) or Network Access Code (RX NAC) for the receive frequency as the mobile or portable subscriber would be programmed.

Block Number	Block Title	Instructions
<b>4</b> (continued)	TX (Transmit) Frequency (N or W)	Enter the Transmit Frequency (TX Freq) as the mobile or portable subscriber would be programmed using xxx.xxxx out to four decimal places, followed by an "N" designating narrowband or a "W" designating wideband emissions.
	TX Tone/NAC	Enter the Transmit Continuous Tone Coded Squelch System (CTCSS) subaudible tone (TX Tone) or Network Access Code (TX NAC) for the transmit frequency as the mobile or portable subscriber would be programmed.
	Mode (A, D, or M)	Enter "A" for analog operation, "D" for digital operation, or "M" for mixed mode operation.
	Remarks	Enter miscellaneous information concerning repeater locations, information concerning patched channels or talkgroups using links or gateways, etc.
<b>5</b>	<b>Special Instructions</b>	Enter any special instructions (e.g., using cross-band repeaters, secure-voice, encoders, private line (PL) tones, etc.) or other emergency communications needs). If needed, also include any special instructions for handling an incident within an incident.
<b>6</b>	<b>Prepared by</b> (Communications Unit Leader) <ul style="list-style-type: none"> <li>• Name</li> <li>• Signature</li> <li>• Date/Time</li> </ul>	Enter the name and signature of the person preparing the form, typically the Communications Unit Leader. Enter date (month/day/year) and time prepared (24-hour clock).

# INCIDENT RADIO COMMUNICATIONS PLAN (ICS 205)

<b>1. Incident Name:</b> Village Glen Apartments/ Knaup 109	<b>2. Date/Time Prepared:</b> Date: 03/11/2018 Time: 11:00 A.M.	<b>3. Operational Period:</b> Date From: 03/14/2018 Time From: 07:00 Date To: 03/14/2018 Time To: 22:00
--	---	---

4. Basic Radio Channel Use:										
Zone Grp.	Ch #	Function	Channel Name/Trunked Radio System Talkgroup	Assignment	RX Freq N or W	RX Tone/NAC	TX Freq N or W	TX Tone/NAC	Mode (A, D, or M)	Remarks
	5	Incident Command	EM-5	IC						Repeated channel
	4	Water Supply	FG BLUE	Supplying Water to Ground OPS						Engine and Ladder Supplying Water to the Ground Defense
	6	Fire Fighters Supporting Defense	FG GOLD	Defense Support Staff						Staffing, to Support Defense Hand lines and Monitors
	2	Active Fire Fighting	FG RED	Active Fire Fighting other						Channel will be used for active fire fighting of any structure other than 109
	3	EMS / Rehab	FG WHITE	EMS						Channel will be used for all EMS operations on the fire ground.
	7	Staging / Accountability	FG BLACK	Staging						Staging / Accountability/Safety
		Law Enforcement	MARC 1	Security/Traffic						Security and Traffic Control

## ICS 205

### Incident Radio Communications Plan

**Purpose.** The Incident Radio Communications Plan (ICS 205) provides information on all radio frequency or trunked radio system talkgroup assignments for each operational period. The plan is a summary of information obtained about available radio frequencies or talkgroups and the assignments of those resources by the Communications Unit Leader for use by incident responders. Information from the Incident Radio Communications Plan on frequency or talkgroup assignments is normally placed on the Assignment List (ICS 204).

**Preparation.** The ICS 205 is prepared by the Communications Unit Leader and given to the Planning Section Chief for inclusion in the Incident Action Plan.

**Distribution.** The ICS 205 is duplicated and attached to the Incident Objectives (ICS 202) and given to all recipients as part of the Incident Action Plan (IAP). All completed original forms must be given to the Documentation Unit. Information from the ICS 205 is placed on Assignment Lists.

#### Notes:

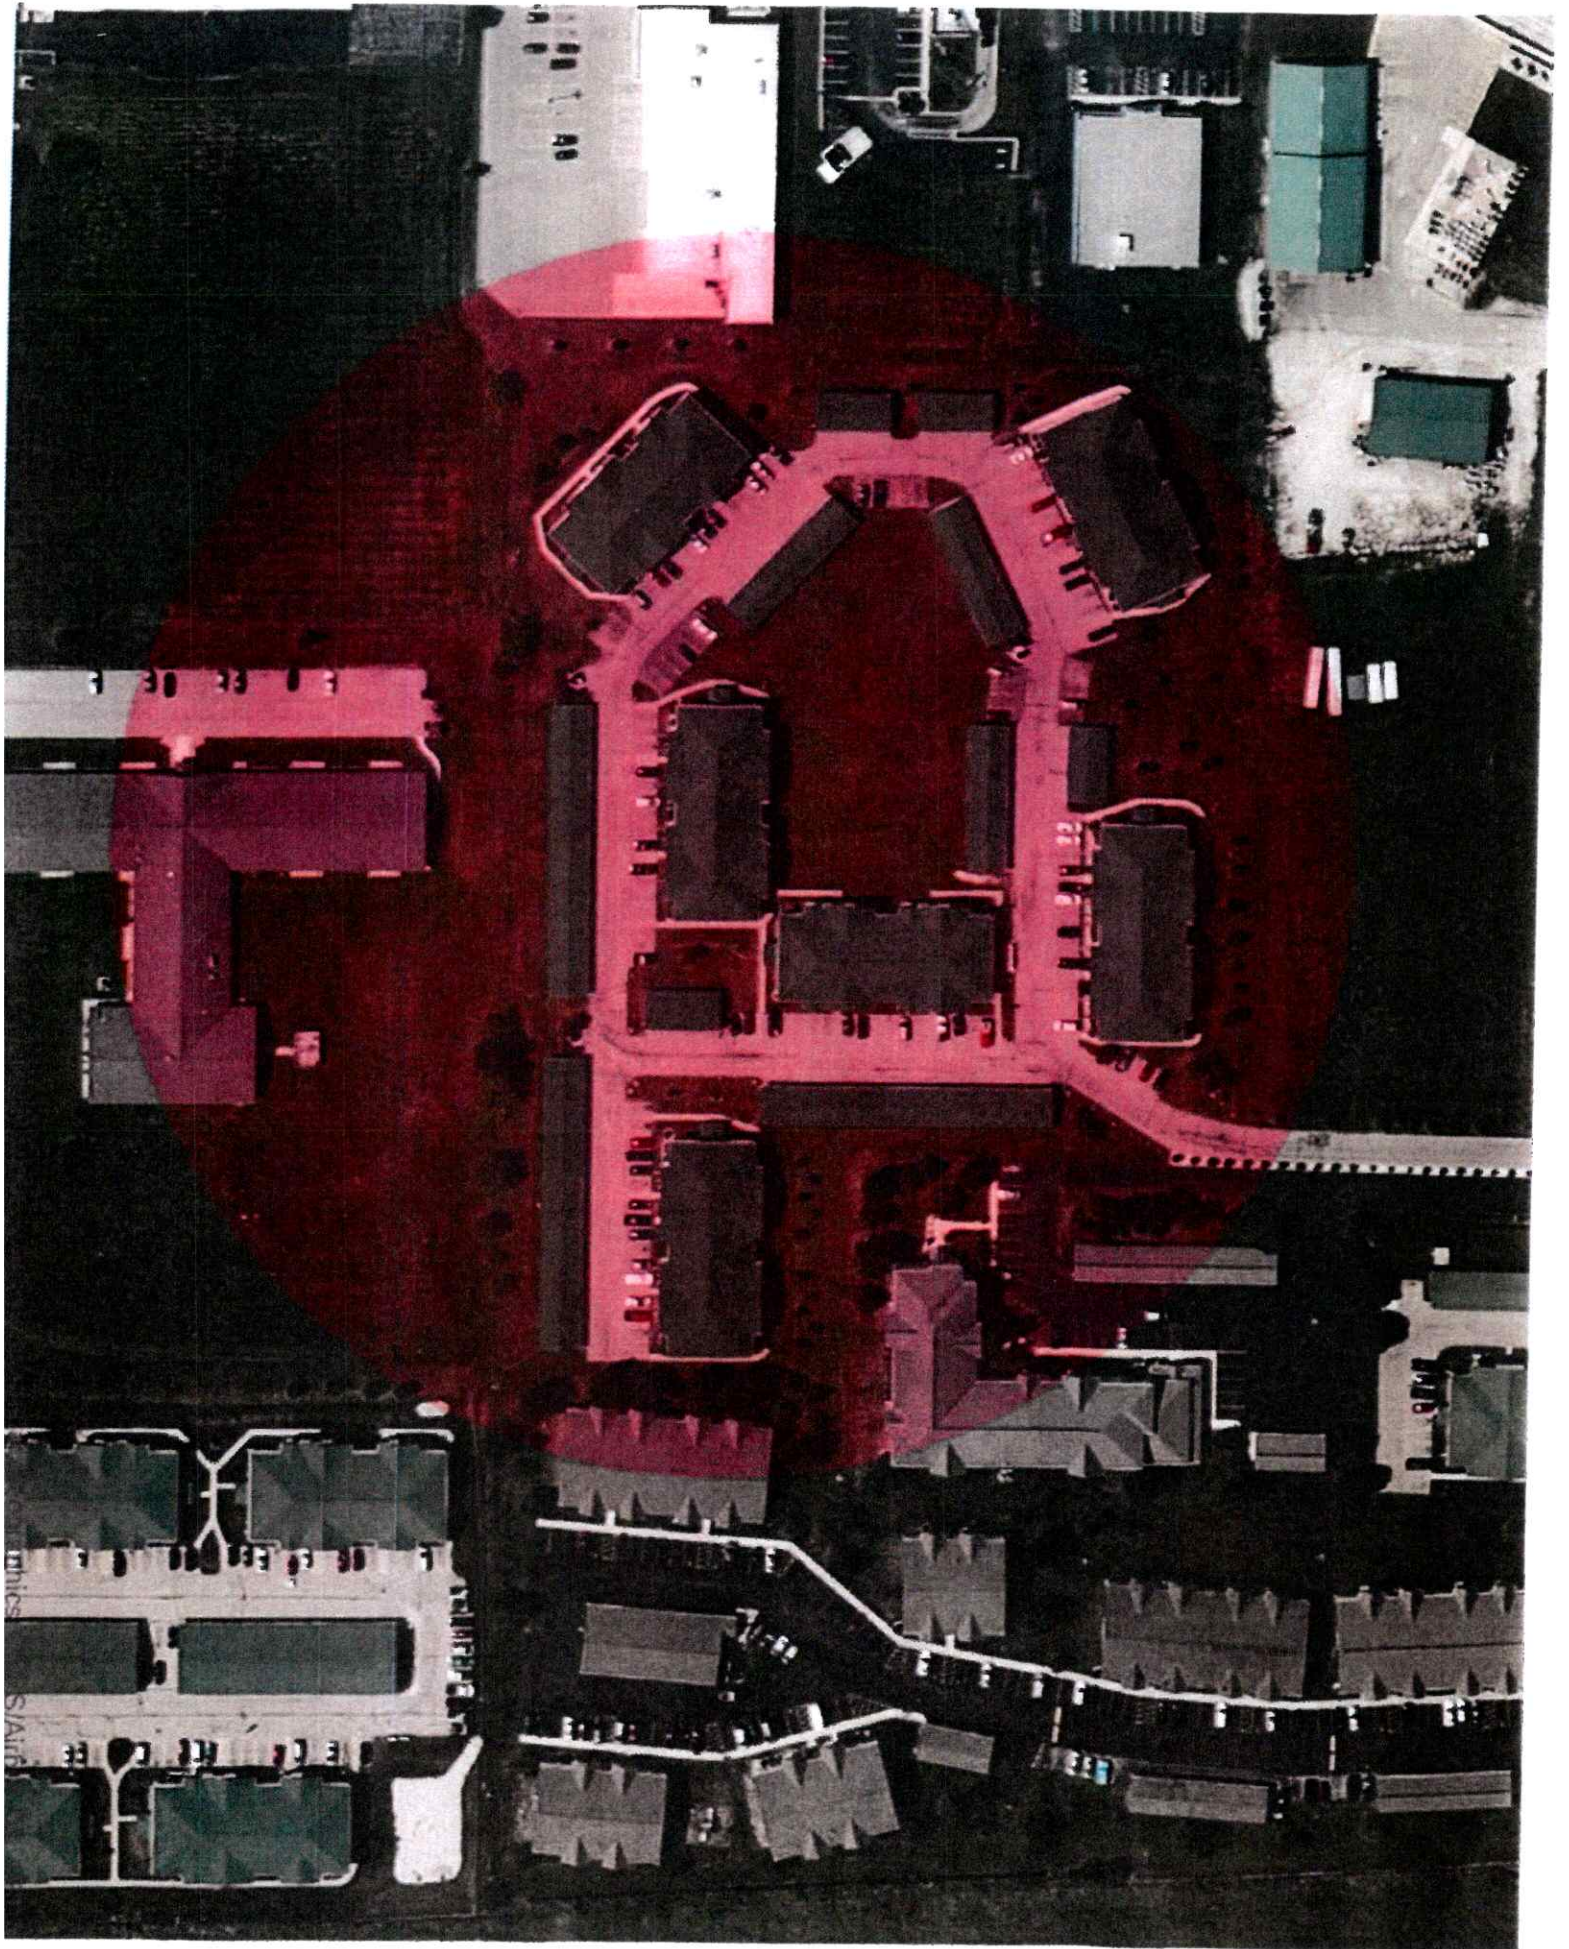

- The ICS 205 is used to provide, in one location, information on all radio frequency assignments down to the Division/Group level for each operational period.
- The ICS 205 serves as part of the IAP.

Block Number	Block Title	Instructions
1	<b>Incident Name</b>	Enter the name assigned to the incident.
2	<b>Date/Time Prepared</b>	Enter date prepared (month/day/year) and time prepared (using the 24-hour clock).
3	<b>Operational Period</b> <ul style="list-style-type: none"><li>• Date and Time From</li><li>• Date and Time To</li></ul>	Enter the start date (month/day/year) and time (using the 24-hour clock) and end date and time for the operational period to which the form applies.
4	<b>Basic Radio Channel Use</b>	Enter the following information about radio channel use:
	Zone Group	
	Channel Number	Use at the Communications Unit Leader's discretion. Channel Number (Ch #) may equate to the channel number for incident radios that are programmed or cloned for a specific Communications Plan, or it may be used just as a reference line number on the ICS 205 document.
	Function	Enter the Net function each channel or talkgroup will be used for (Command, Tactical, Ground-to-Air, Air-to-Air, Support, Dispatch).
	Channel Name/Trunked Radio System Talkgroup	Enter the nomenclature or commonly used name for the channel or talkgroup such as the National Interoperability Channels which follow DHS frequency Field Operations Guide (FOG).
	Assignment	Enter the name of the ICS Branch/Division/Group/Section to which this channel/talkgroup will be assigned.
	RX (Receive) Frequency (N or W)	Enter the Receive Frequency (RX Freq) as the mobile or portable subscriber would be programmed using xxx.xxxx out to four decimal places, followed by an "N" designating narrowband or a "W" designating wideband emissions.  The name of the specific trunked radio system with which the talkgroup is associated may be entered across all fields on the ICS 205 normally used for conventional channel programming information.
	RX Tone/NAC	Enter the Receive Continuous Tone Coded Squelch System (CTCSS) subaudible tone (RX Tone) or Network Access Code (RX NAC) for the receive frequency as the mobile or portable subscriber would be programmed.

Block Number	Block Title	Instructions
<b>4</b> (continued)	TX (Transmit) Frequency (N or W)	Enter the Transmit Frequency (TX Freq) as the mobile or portable subscriber would be programmed using xxx.xxxx out to four decimal places, followed by an "N" designating narrowband or a "W" designating wideband emissions.
	TX Tone/NAC	Enter the Transmit Continuous Tone Coded Squelch System (CTCSS) subaudible tone (TX Tone) or Network Access Code (TX NAC) for the transmit frequency as the mobile or portable subscriber would be programmed.
	Mode (A, D, or M)	Enter "A" for analog operation, "D" for digital operation, or "M" for mixed mode operation.
	Remarks	Enter miscellaneous information concerning repeater locations, information concerning patched channels or talkgroups using links or gateways, etc.
<b>5</b>	<b>Special Instructions</b>	Enter any special instructions (e.g., using cross-band repeaters, secure-voice, encoders, private line (PL) tones, etc.) or other emergency communications needs). If needed, also include any special instructions for handling an incident within an incident.
<b>6</b>	<b>Prepared by</b> (Communications Unit Leader) <ul style="list-style-type: none"> <li>• Name</li> <li>• Signature</li> <li>• Date/Time</li> </ul>	Enter the name and signature of the person preparing the form, typically the Communications Unit Leader. Enter date (month/day/year) and time prepared (24-hour clock).

## Re: IAP - Final for March 15th, 2018 Thermal Destruction of Building 109

IAP Revised 3-15-18.pdf; BD ICS 205.pdf;

Please see the attached revised IAP and update 205a. As previously discussed the IAP is revised to now reflect the March 15th 2018 (Thursday) date for the thermal destruction of Building 109.

Activities for tomorrow Wednesday March 14th, 2018 will be setup and verification activities associated with the plan. USEPA will be in the area setting up air monitoring equipment inside and outside structures. They will be doing verification testing of telemetry and testing instrumentation. The sea container barriers will be being placed tomorrow. All persons working in the area should be aware of both activities. Since heavy equipment will be involved in container placement, check in with on site crews before working in this area.

Division and Group Supervisors, Command and General Staff and Safety Officer as well as agency staff are invited to an operations briefing (ops brief) at 0600 on March 14th, 2018.

The attached does not include the post burn plan, or the re-entry plan. These are available at the EOC if required.

If anyone has questions, please call me directly at 920-427-6920

# Chemical found at Beaver Dam apartment is explosive TATP, health official says

*Officials believe fire will consume explosive*

MADISON, Wis. - The chemical found in a Beaver Dam apartment is the explosive TATP, News 3 has learned.

Robert Thiboldeaux, Senior Toxicologist with the Wisconsin Division of Public Health told News 3 that first responders on scene in Beaver Dam have shared that the explosive triacetone triperoxide, also known as TATP, is what was found in the Knaup Drive apartment building.

"We've been told that the explosive TATP was found on site," Thiboldeaux said in an interview Tuesday. "There was a person occupying one of these apartments that was doing something with this material. Local first responders got involved and at that point they've decided that they can't safely remove this material."

@RoseSchmidtTV

#BREAKING We've learned that the chemical found on scene in a Beaver Dam apartment is the explosive known as TATP. Health officials tell #News3 that the explosive is highly sensitive to being moved or tested in the field.

4:03 PM - Mar 13, 2018 · Wisconsin, USA

1 See Rose Schmidt's other Tweets

When asked at a news conference Tuesday afternoon, Beaver Dam fire chief Allen Manned said he could not confirm that TATP was on scene and Beaver Dam police chief John Kreuziger told News 3 he couldn't discuss what was inside the building.

Thiboldeaux say the explosive is highly sensitive to being moved or tested in the field.

Officials in Dodge County have said they believe the chemicals found in the apartment can only be eliminated by burning the building down. That burn was scheduled for Wednesday, but was moved to Thursday because of concerns about high winds. Thiboldeaux tells News 3 that state fire-fighting experts believe there will be no unusual hazards to the public in the air.

"The explosive itself, we expect that to be consumed in the fire. So that's not really an issue," Thiboldeaux said. "The issue really is this will be a fire that produces smoke just like any other building fire."

Thiboldeaux says the public should follow instructions of the fire department, and those with pre-existing conditions should check with the Dodge County Health Department or their doctor to see about any concerns for exposure to smoke.

Sponsored by Connatix

Thiboldeaux also tells News 3 the Environmental Protection Agency will be on hand to monitor the air and clear residents in Beaver Dam to return to apartments in the area.

TATP was reportedly used in the bombs in the Paris attack in 2015, and New York Central Park explosion in 2016, according to published reports.

Officials in Beaver Dam have said they believe there is no link to terrorism.

# Post Burn Planning

## Step One:

Initiate Sampling of Ash and debris as soon as safe and practical after burn pile cools to determine if ash is energetic following the disposition classification system of treated materials.

- Philosophy of 0, X 3X, 5X classification system
  - Army Industrial Operations Command - IOC 385-1
  - P&W Work Instruction 231.07.67, Classification and Decontamination of Explosive Facilities and Equipment
  - Tagging certification and documentation

## X, 3X, 5X, and 0 Definitions

- X or 1X - Routine cleaning
  - Such as end of work day
  - Contamination may be visually detectable
  - Transported only in live area by qualified personnel
  - Further cleaning needed for major maintenance or repair
  - Cannot be sent outside the live area without further decontamination and reclassification
- XXX or 3X - Surface contamination removed
  - Visual surface contamination removed
  - Some contamination may be detectable with indicator solutions
  - Significant reactive material may remain in less obvious places
  - Safe for routine maintenance, and careful disassembly (following written procedures accounting for specific hazards)
  - Don't subject to welding, drilling, sawing, etc that may ignite residual contamination

- Not safe for sale to general public
- Only qualified buyers and approved, qualified landfills can receive
- XXXXX or 5X - No significant amount of contaminants remain
  - Undergone a verifiable and repeatable decontamination process certified to remove the reactive materials
  - No significant amount of explosive remains
  - Very sensitive laboratory analysis may still detect contaminant in the parts per million range
  - Safe for welding, drilling, sawing, or other heat producing activity
  - May be released for general use to the general public
- 0 or Zero - Articles, equipment or building never contaminated
  - No explosive safety hazard

## Step Two:

If Ash is still energetic 1x- to 3x = Chemical Treatment using contractor. Maintain security watch and fence until plan can be developed.

If Ash is determined energetically safe = 5x or zero, a determination is then needed as to disposal suitability. Maintain security until Law Enforcement is done collecting evidence. Complete search of surrounding areas to ensure no post blast debris is evident. Once completed have City Attorney draft a property release to owner. WDNR Solid Waste should be notified to work with property owner on waste disposition. We recommend the city not be party to any waste disposal.

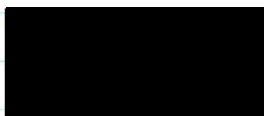

Step Three: After Ash removal remove fence.
